SUMMARY

I'm a Computer Science student with a strong interest in technology, personal growth, and entrepreneurship. I love exploring new things, turning ideas into real work, and seeking out experiences that broaden my knowledge and skills. I'm driven to keep learning, innovating, and contributing through what I can do. To me, every process is a chance to grow and to create something meaningful.

EDUCATION

B.Sc. Computer Science Student 2026 – now
Universitas Sumatera Utara, Medan

Currently in my first semester. Intro to Programming midterm project: SI-PANDRI with Team SEPAKAT.

Vocational High School Student
SMK Tritech Informatika Medan, Medan

EXPERIENCE

Vocational Internship
PT Easy Digital Indonesia, Medan

ORGANIZATIONS

Chair of iTeens
SMK Tritech Informatika Medan, Medan

Led iTeens, a tech extracurricular club that trains programming logic, algorithms, problem solving, web fundamentals, and OOP. Ran weekly workshops and interactive coding sessions, plus a peer-mentoring program where seniors coach juniors.

COMPETITIONS

Student Skills Competition (LKS), Web Technologies 2025
LKS SMK

Competed from the city level through the provincial level to the national level.

FEATURED PROJECTS

SI-RAJU 2.0 React, Vite, Tailwind CSS, three.js, Google Gemini

A web app for interest and talent tests with study-major recommendations.

si-raju.vercel.app/ · github.com/SyamayDev/react-sistemrekomendasijurusan
